Hamilton County.
The only county in Ohio, which did not com quite up to the expectations of the Republicans was Hamilton. Our friends hoped to carry it was Hammion. Our recent appear of carry s, but failed by a few hundred votes, in a poll of 27,000. The Democrats owe their victory entirely to the "Americans" who belted the opposition ticket. The platform constructed by the Republicans at their last State Convention, was idered too radical by the old Silver Grey: Americans claimed the office of Treasurer, worth \$30,000 per year, and brought ferward as exceedingly obnoxions candidate whom the Republicans refused to support. The Convention ndidates for the Legislature. Some of the Americans hate Gov. Chase, and they insisted Americans hate too. Chase, and they insisted upon nominating men known to be opposed to sending him back to the Senate. But his friends very properly would not permit any such persons to be put on the ticket. And when the ticket was made, the "Spread Eagle" As tion met and passed resolutions denouncing the Convention, ticket, and Republican party.—
The Cincincianati Times, the eld Know-Nothing organ, bitterly opposed the ticket and exerted all its influence to defeat it. Thus situated, the Republicans were obliged to rely upon their own strength, and not only light the Democrats but to contend single-handed against a coalition of to contend single-handed against a coalition of spiteful Know Nothings and Douglasites. Hamilton County, it must be remembered, has

long been the strong-hold of the Ohio Demo-eracy, rolling up from 8,000 to 5,000 majority as occasion required. That the Republicans is really a thing which should crease no sur-prise. And that the Democrats owe their vic-tory to the Know Nothings is a fact they freely admit. The Enquirer thus frankly remarks:

"The entire Democratic party was sugged in the contest, united as one man in a determin

in the contest, during the duty to their State and country, but without the boble and of the Americans we could not have succeeded."

This is a frank, though humilisting confessions of the confession of the con sion, but it does no discredit to the gallant Re-publicans. The rapid growth of the party in

Pond no Lac, Wis., Oct. 12, 1859. I sent a half finished aktich as we were leaving Janeaville to-day with a pleasant party of about a thousand guests, all intent on being happy themselves and making everybody ehe happy, at the opening of the Chicago and Northwestern Railway to Lake Winnebago. Our citizens all seemed, and with reason, to regard this as one of the most important events in the history of the city. From Janeaville to Fond du Lac the country was all new to most of us, and before the opening of this line, the towns through which we passed, were only accessible to Chicago by Milwankes. Now, we can reach them direct in a few hours, and it will be the fault of our merchants if Chicago does not

them direct in a few hours, and it will be the fault of our merchants if Chicago does not open up a large trade with them. The first balt we made was at FORT ATKINSON,

twenty miles north of Janesville. This appeared to be a thriving, prosperous town. When we first looked upon the map of the "Northwestern Territory," we remember that it was one of the few points to be noticed in all this region. The people seemed all to have some out spontaneously to give us a hearty welcome, while our eannour made the welkin ring

This is also a beautiful town, and so far as we could judge from the cars, it is some larger than the one we last left. Everything looks thrifty and prosperous, and there is an air of

The blackheartedness of a desertion and faithlessness like that of Holmes, shows to as all the worse through the thin varnish of a pretended conscientiousness, defended by a canting whine over "affinities" and "kindred spirits." ple. Of course, in so large a company, there was a good deal of canvassing for rooms, but in half an hour's time all were as fety provided for at the Lewis House and the other hotels, or

billeted out among the citizens.

Supper over, the company repaired to Armore Hall, where, to the music of the Chicago Liquid Guard Band, the lads and lasses were chasin lines were closed for the morning mail. sy the way, Armory Hall is really an honor to the city of Fond du Lac. It fairly bests our own Metropolitan both in size and arrangement. Chicago will have to try again before she excels

his lately connected sister city.

Taken as a whole, the day has been one of unalloyed enjoyment. Geo. I. Dunlap, Esq., Superintendent, and E. DeWitt Robinson, Esq., have been everywhere contributing to the plea-sure of their guests. The immense train drawn occurred to mar our enjoyment.

Osnkosn, Oct. 13, 1889. We started on the excursion train that left songer cars and two locomotives. The day was fine and every one seemed in good spirits. Ar-rived safely at Janesville at 1† P. M., and had rived asfely at Janesville at 1t P. M., and had dinner at the Hyatt House at a cost of fifty cents each and a good jam, and by using proper force made a passable dinner. At the different places along the line of the road we were welcomed by guns and cheers, which were responded to by our "peace maker" on the last car, and the voices of the passengers.

Arrived at Fond du Lac at 8 P. M., and were welcomed by a torch light precessing, and conwelcomed by a torch light procession and conducted to the Lewis House, where preparations all adjourned to Armory Ball, where they wer congaged in tripping "the light fantastic toe" till the "wee sma' hours." The citizens of Fond du Lac had made preparations for sleeping the whole party, and by sending around to private houses every one was provided for.

Frond to Lae deserves much praise for the generous way in which they looked out for the comfort of the party.

It is a pleasant little city, and rejoices much in being connected directly with Chicago by

railway.

Left Fond du Lac this morning at 91 o'clock and arrived at Oshkosh at 10t o'clock, and were welcomed by a great crowd. Preparations had been made for the whole party to go on to Appleton by steam bost, but as it looked very like a storm, it was given up, and the boats proceeded on an excursion up the Walf River.

the Wolf River.

This place seems quite a business point, but is suffering from the great fire in Junelast. There are but two small botels, and this is the reason the city did not make a public thing of the reception, as it would have been imp much, and they also feel the importance of their connection with Chicago. Hon. W. B. Ogden is thought much of, and every one considers that it has been through his efforts that the road

has been built.

The Cadeta attracted great attention all the way, and as I write they are drilling for the benefit of the good people of Oshkosh, and by the crowd looking on I should judge that they en oyed it very much. Take it all together the exentsion has been

It will be remembered that among the special premiums offered at the late National Pair in this light was an award of \$50 by the Board of Trade for the best Fanning Mill and Separator. This result was doubtless precipitated by the action of the General Conference at its same session in who read the PRESS AND TRIBUN Conference for having silenced one of its mer bers, Rev. P. The whole story is a very far-fetched and clumsy slander nterim both the clergy and the laity were grad

In the General Conference of 1856, a proposition to make non-slaveholding a test of Membership, was warmely advocated, and carried by a decided majority, but not by a two-thirds wote. By the constitution of the Church a change in its rules can only be made upon the recommendation of three-fourths which Gov. Randall would be the first to conradiet if it should happen to reach his ears. The converts to Republicanism whose eyes are been unsealed, on the one hand by the nurder of Broderick, and on the other by the

The bludgeoning of Summer was not nearly so sharp an argument on the remorselessness of slavery as the late cold-blooded butchery of the brave Californian. Nor was the shameful taunt of "Charles Sun double distilled treachery and baseness of Douglas and the Douglas organs which are now stigmatizing Mr. Broderick as a "bolter," Slavery is this: (1). The General Rule forbids and mousing over his vulgar "associations," buying and selling men, women and children with an intention to enslave them." The Dr. has been prominently before the public for many years, having been Chaplain to Congress and President of the Indiana State University, many years, having been Chaplain to Congress and President of the Indians State University, as well as having filled some of the most prominent positions of his Church. He was one of the few ministers of that body whe consented to not with the Willard, Bright, Buskirk and Hughes Democracy upon its pre-alwery, prowhisty platform. When suspended upon the same charges some months ago, his friends cried out "political proscription, partizanship," êtc., and he, believing that they cared enough for him to stand by him, tendered his resignation of the Presidency of the Board of Trustees—his ours, friends (?) being in the majority. He doubtleas expected them to refuse it, but to his surprise it was promptly accepted? Having become uneless to them by copying too closely the vices of his political lenders, they cast him off as lightly as they would an old shoe.

The Conference gave him every chance for his defence. His speech occupied, as we learn from the Indianspolis State Journal, about four hours, but the proofs of his and errors were too conclusive. We are sorry for him. The Church
